

VALOR

Housed within the historic **Bob Hope Patriotic Hall**, The Veterans and Loved Ones Recovery (VALOR) Program's mission is to provide mental health services to Veterans and their families, regardless of VA eligibility status and military discharge, in a supportive environment.

The VALOR Program aims to serve as a national model of community involvement and strives to achieve the Department of Mental Health's (DMH) goals of hope, wellness, and recovery for Veterans in Los Angeles County. DMH's VALOR Program envisions the restoration of hope and honor to the most vulnerable, un-served, and underserved Veterans and their families as they reintegrate into society.

Team members assist these Veterans in establishing a personal mission and identity, developing a meaningful connection and sense of camaraderie with other Veterans, and obtaining a knowledge base of resources and systems available to them.

Our dedication to improving overall wellness of our Veterans will be evidenced by a reduction of homelessness and increase of housing linkages and mental health services, and building partnerships with Veteran's services providers.
